## Erratum to: Res. Number Theory (2017) 3:7 DOI 10.1007/s40993-016-0070-6

In this version of this article that was originally published [1] the exponential rates of conjugacy growth in Corollary 5 on page 4 of the PDF and in Corollary 7 on page 5 of the PDF are incorrect, due to a typographical error. The equation in Corollary 5 should read,

$$\tilde{H}_{W_S}^{\text{conj}} = \pi \sqrt{\frac{2M_S}{3}},$$

and the equation in Corollary 7 should read,

$$\tilde{H}_{W_A}^{\text{conj}} = 2\pi \sqrt{\frac{M_A}{3}}.$$

The online version of the original article can be found under doi:[10.1007/s40993-016-0070-6](https://doi.org/10.1007/s40993-016-0070-6).
